Anxiety
- 脾氣
Bad tempered
- 行為欺凌或被欺凌
Bullying/Being Bullied

ASD學齡兒童 – 困難

School-aged Children with ASD – Challenges

ASD學童經常較困難地作面部表情識別。

他們也難以正確地識別自己的情緒。

Kids with ASD usually have difficulties in facial expression recognition.

They also have difficulties in correctly identifying their own emotions.

白White:	一般發展兒童 typically-developed kids
黑Black:	ASD兒童 kids with ASD

ASD兒童較常註視背景及女士的口部
Kids with ASD gaze significantly more on the background and the lady's mouth

重複性，OCB -強迫性強制行為

Repetitive, OCB - obsessive compulsory behaviours
